## SUMMARY

Motivated Web Developer with an extensive knowledge of web development, design, and coding, as well as experience in a wide range of programming languages, frameworks, and tools. Proven success in developing and deploying applications, websites, and web services. Highly organised and detail-oriented, with a knack for finding creative solutions to challenging problems.

---

## EXPERIENCE

### Front End Developer

Brandvat

February 2020 – May 2023

- Translated flat design files to clean, accessible and interactive user experiences.
- Implemented state management and handled application logic within React applications.
- Built and optimised user interfaces using React.js, with a focus on reusable components and APIs.
- Created prototypes of new applications or features to demonstrate potential functionality to stakeholders.
- Documented test plans, testing procedures, or test results.
- Conducted thorough testing of web applications to identify and resolve bugs.

### Front End Developer Intern

The Echo Digital

January 2019 – January 2020

- Designed and developed visually appealing and responsive user interfaces using HTML5 and CSS3.
- Built single-page applications (SPAs) using React.js.
- Optimised front-end code for speed, scalability, and maintainability.
- Collaborated with UX/UI designers to implement design mockups and wireframes.
- Utilised Git for version control to manage collaborative coding projects.
- Designed and developed new features and functionality for existing systems.
